

Hospital Management System

Presented by :
Ms.Jyoti Suryawanshi

Guided by
Prof.Abhijit Mane
Prof.Tushar Pathare

ESTD : 1983

Introduction

Welcome to
Maharashtra Institute
Of Medical Sciences and Research

Project Details

Project Details:

- **Team Size:1 (self-Jyoti Mahadev Suryawanshi)**
- **Project Name:Hospital Management System**
- **Used Technology:Apache,Xampp server**
- **database:Mysql**
- **Language using: PHP**
- **Design Interface:HTML,JAVASCRIPT,CSS,jquery..**
-

Functionality & Microservices

- Patient, Doctor, Admin login
- scheduling Appointment
- Patient registration
- Insurance claims
- patient self service
- lab and doctor co-ordination....

Benefits||Advantages

For the user section, the users can either be a patient or a doctor. The user can log in as a doctor, check their appointment, patients, timings, and so on. Similarly, to log in as a patient, the user should have their login id and password for this hospital. If the patient doesn't have them, they can first register as a new patient. The patient can check their appointment times, prescription records, treatment records, and so on.

Save Tree !! Save Water !! Save Life!!!

Future Work: Citizen Registration and Appointment for Vaccination

Government of India is taking all necessary steps to ensure that the nation is prepared to face the challenge and threat posed by the growing contagion of COVID-19. The exemplary groundwork and precaution advisory by the Government has helped in containing the spread of the virus in our country. At present, the priority is to make COVID -19 vaccine available to all, ensuring vaccine traceability and beneficiary tracking from production to last mile administration. COVID-19 vaccination drive has been initiated to cover healthcare and frontline workers and is to be scaled up to cover citizens above 60 years of age and and/or citizen above 45 years of age suffering from comorbidities
